

A WORLD BEYOND WOOD

INTRODUCING ACRE™

The world's most advanced tree-free
building material.

ACRE™ BY MODERN·MILL

Modern Mill. Come Build on Our Ideas.

At Modern Mill, we're on a mission to bring you the revolutionary materials you'll need to build a more sustainable future. As a people-first company based in Fernwood, Mississippi, we strive to make things better for the planet while pursuing relentless innovation for our customers.

Introducing ACRE™—a fresh new take on beauty, sustainability and durability.

ACRE, our flagship product, is a brand-new material manufactured in the USA from upcycled rice hulls, a byproduct of rice production. The rice hulls give ACRE its amazing strength, water resistance and organic feel, making it indistinguishable from real wood. ACRE is an inspiring idea that proves sustainability doesn't mean sacrificing performance.

With ACRE, you can satisfy the needs of the architect, artisan, builder, and homeowner alike. It looks, feels and handles like real wood—but with far less maintenance and a smaller environmental footprint. See how this revolutionary new idea can inspire you.

DURABLE

- Resists water, weather, and pests
- No splintering or cracking
- Industry-leading Limited Lifetime guarantee

BEAUTIFUL

- Look and feel of real wood, including realistic grain
- Easy to sand, stain, paint, rout, mill or digitally print

SUSTAINABLE

- Manufactured in the U.S.A. from upcycled rice hulls in a zero-waste facility
- Free of phenol, formaldehyde and adhesives
- 100% recyclable

CUSTOMIZABLE

- 4' wide x 8' length sheets standard, up to 20'; custom dimensions available
- Thickness: 1/4", 3/8", 1/2", 5/8", 3/4", 15/16" (actual)
- Available in sheets, trim, decking and siding

EASY TO HANDLE AND INSTALL

- Lightweight yet strong and straight
- Can be processed with common woodworking tools
- Uniform texture and finish-ready edge throughout
- Accepts screws and nails easily with a flush finish
- Thermoformable, perfect for curved applications
- Easy to glue and bond

What can you do with ACRE? Virtually anything you can imagine.
