

# ASTM E2957 TEST RESULTS FOR DOLLY VARDEN T&G

Soffit hit with 1,022,000 btu gas flame for 10 minutes.

Dolly Varden T&G self extinguished prior to completion of 40 min test.

Backside of Dolly Varden T&G experienced no burn through.

The gas flame is placed 2 feet closer to the soffit than the CalFire 12-7A-3 soffit test.

Dolly Varden is the naturally safe choice for siding and soffits in high fire severity zones.
