

2025 FREIGHT POLICY – LESS THAN TRUCKLOAD (LTL)

Beginning June 9, 2025 all Less-than-truckload shipment of Catalyst Fence materials will have a freight line item added to the invoice. Pricing on Full Unit / Job-Lot LTL shipments for both Aluminum and Vinyl have been adjusted to remove the historical embedded freight.

Each job lot / full unit LTL will have freight charged as a percentage of the job value which will vary based on the state where it is delivered. There is a minimum dollar amount of freight applied. The freight rate on the invoice will be the greater of either the minimum amount or the percent of order value.

Full truckload shipments of Catalyst Fence do not change

LTL Shipments of Full Units will assess the freight rate in the following pages

Job Lot shipments of Vinyl and Aluminum have a 10% upcharge over the full-unit price plus freight charges assessed

In the following pages of this document, you will find freight rates for shipments to each state for Catalyst Fence Materials

1. Full Unit / Job Lots LTL Vinyl Fence orders
2. Full Units / Job Lots LTL Aluminum Fence orders
3. Current freight policy for Cantilever / large aluminum gates does not change
4. Current parcel freight policy does not change

These freight rates and policy are established based on standard job lot / LTL programs running out of these sites – Vinyl Job lots from Bulls Gap TN, Aluminum Job lots and gates from Brooksville FL.

Bulls Gap, TN VINYL LTL / JOB LOTS

Vinyl Fence Job Lots and LTL shipments primarily originate in the Bulls Gap, Tennessee Extrusion facility.

Use this map to determine LTL freight rate for shipping full units via LTL mode from Bulls Gap.
