

TEC™ Technology with Zinc Borate

**MIRATEC**®  
Treated Exterior Composite  
**BARN TRIM**

## Constructed to Last

MiraTEC® Treated Exterior Composite Barn Trim is created using the patented TEC™ manufacturing process which bonds natural wood fibers with phenolic resins and zinc borate. The result is a wood composite trim so resistant to moisture, rot and termites that it's backed by an industry-best 50-year limited warranty.

# MIRATEC®

Treated Exterior Composite

**BARN TRIM**

**5/8"**

## Weatherability Testing Proves MiraTEC Performs Better than Hardboard and OSB Trim

All samples tested were 4/4.

Source: Performed by an accredited third party testing agency. Full details available upon request by emailing [testdetails@cmicompany.com](mailto:testdetails@cmicompany.com).

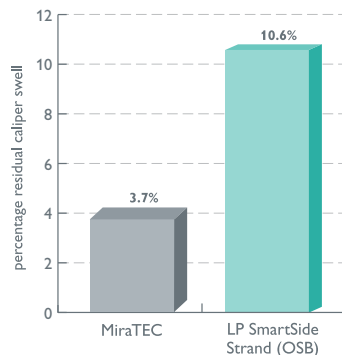

## Advantages of MiraTEC Barn Trim

- Industry-best 50-year limited warranty.
- Moisture, rot and termite resistant.
- One solid piece, not laminated - won't check, split, crack or delaminate.
- More uniformly dense across its thickness; cuts consistently.
- Reversible: clear cedar wood grain texture on one side, smooth on the other.
- Easy to handle, machine, cut and nail.
- Factory-primed on four sides with a low VOC primer with a mildewicide.
- Micro-beveled face.

## 5/8" Thickness

Nominal Size	Actual Size	Pieces Per Unit
3" x 16'	2 1/2"	320
4" x 16'	3 1/2"	240
6" x 16'	5 1/2"	160
8" x 16'	7 1/4"	120
10" x 16'	9 1/4"	100
12" x 16'	11 1/4"	80

All samples tested were 5/4.

## MiraTEC Barn Trim is the Best Option

### Advantages over LP® SmartSide® Strand (OSB) Trim

- MiraTEC is reversible – smooth on one side, wood grain texture on the other.
- MiraTEC has an authentic clear cedar wood grain texture.
- MiraTEC has a more comprehensive warranty; protects against hail damage, rot and edge swell.
- MiraTEC is available in more widths.
- MiraTEC can be machined.

### Advantages over LP® SmartSide® Fiber (Hardboard) Trim

- MiraTEC is **NOT** hardboard.
- MiraTEC has greater moisture resistance, and therefore better long term performance.
- MiraTEC has a more comprehensive warranty; protects against hail damage, rot and edge swell.
- MiraTEC is created through a patented, proprietary process to create a product specifically designed for trim; LP SmartSide Fiber (Hardboard) trim is manufactured using a traditional hardboard siding process.

### Advantages over Hardboard Trim

- MiraTEC is an engineered product that is one solid piece – it is **NOT** hardboard.
- MiraTEC has greater moisture resistance, and therefore better long term performance.
- MiraTEC is made from a process created specifically for exterior trim.
- MiraTEC has a more comprehensive warranty and protects against hail damage, rot, termites and warping.
- MiraTEC has an authentic clear cedar wood grain texture.
